Kitimat LNG community notice

The Kitimat Industrial Site (former Eurocan Pulp and Paper Mill) is an integral part of the proposed Kitimat LNG project. Since 2013, Chevron has been engaged in ongoing work to remediate and re-purpose the Industrial Site to support future infrastructure required for the development of the Kitimat LNG plant site at Bish Cove.

The following remediation and reclamation work activities are tentatively scheduled for this summer:

- decommissioning and demolition of a small number of structures on the site
- environmental monitoring studies and surveys
- ongoing engineering surveys
